**DETAILED ACTION**

**REPEATED REJECTIONS**

1. The 35 U.S.C. 103(a) rejection of Claims 14 - 16 as being unpatentable over Seelich et al. (U.S. Patent No. 6,579,537 B2) in view of Ota et al (U.S. Patent Publication No. 2003/0055179), of record on page 2 of the previous Action, is repeated.

**ANSWERS TO APPLICANT'S ARGUMENTS**

2. Applicant's arguments regarding the 35 U.S.C. 103(a) rejection of Claims 14 - 16 as being unpatentable over Seelich et al. (U.S. Patent No. 6,579,537 B2) in view of Ota et al (U.S. Patent Publication No. 2003/0055179), of record in the previous Action, have been carefully considered but have not been found to be persuasive for the reasons set forth below.

Applicant argues, on page 1 of the remarks dated February 20, 2009 (pages not numbered), that there is no motivation in Seelich et al or Ota et al to reduce freeze - thaw voids or to combine their elements to reduce freeze thaw voids.

However, as stated on page 2 of the previous Action, motivation is provided for providing for the modulus of Ota et al in Seelich et al, for the purpose of obtaining transparency and heat resistance; a method of reducing freeze thaw voids is therefore disclosed by Seelich et al and Ota et al.

Applicant also argues on page 1 that the motivation for providing for the modulus of Ota et al in Seelich et al is not the reduction of freeze thaw voids.

However, because motivation exists for providing for the modulus of Ota et al in Seelich et al, Ota et al and Seelich et al disclose the limitations of the claimed invention, although the motivation is not the reduction of freeze thaw voids.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
